

Instruction

Title I Programs

In order to improve the academic achievement of disadvantaged students, the District shall use federal Title I funds to provide eligible students with supplementary services to reinforce the core curriculum and assist students in attaining proficiency on state academic achievement standards and assessments.

The Superintendent or designee shall provide technical assistance and support to any school participating in the Title I program, including consultation in the development and implementation of school plans and activities. (20 USC 6312)

The Superintendent or designee shall involve parents/guardians in the joint development of the District's written Parent Involvement Policy pursuant to 20 U.S.C. ' 6318.

Local Educational Agency Plan

The Superintendent or designee shall consult with teachers, principals, administrators, other appropriate school personnel, and parents/guardians of participating students in the development, periodic review, and, as necessary, the revision of a local educational agency (LEA) plan. The plan and any revisions shall be submitted to the Governing Board for approval. (20 USC 6312)

The plan shall address the components specified in 20 USC 6312, which describe the assessments, strategies, and services the District will use to help low-achieving students meet challenging academic standards.

The initial plan shall be submitted to the California Department of Education (CDE) and approved by the State Board of Education. Subsequent revisions of the plan shall be kept on file in the District.

Comparability of Services

State and local funds shall be used by schools receiving Title I funds to provide services that, taken as a whole, are at least comparable to services in schools that are not receiving Title I funds or, if all District schools are receiving Title I funds, that are substantially comparable in each school. Comparability may be determined on a school-by-school basis or a grade-span by grade-span basis.

In determining comparability, the District shall not include staff salary differentials for years of employment. The District also may exclude unpredictable changes in student enrollment or personnel assignments that occur after the beginning of the school year, state and local funds expended for language instruction educational programs, state and local funds expended for the excess costs of providing services to disabled students, and supplemental state or local funds expended in any school attendance area or school for programs that specifically meet the intent and purposes of Title I. (20 USC 6321)

Program Evaluation

The Board of Education shall use state assessment results and other available measures or indicators to annually review the progress of each participating school and determine whether the school is making adequate yearly progress toward ensuring that all students meet the State's proficient level of achievement on state academic assessments.
