

Instruction

Career Technical Education

The Board of Education desires to provide a comprehensive career technical education (CTE) program in grades 7-12 which integrates core academic instruction with technical and occupational instruction in order to increase student achievement, graduation rates, and readiness for postsecondary education and employment. The District's CTE program shall be designed to help students develop the academic, career, and technical skills needed to succeed in a knowledge- and skills-based economy. The program shall include a rigorous academic component and provide students with a strong experience and understanding of all aspects of an industry.

The Board shall review and approve all District plans and applications for the use of state and/or federal funds supporting CTE. The Board shall adopt standards for CTE which meet or exceed the state's model content standards and describe the essential knowledge and skills that students enrolled in these courses are expected to master. The course curriculum shall be aligned with District-adopted standards and the state's curriculum framework.

The Superintendent or designee shall develop partnerships with local businesses and industries to ensure that classroom instruction has real-world relevance and reflects labor market needs and priorities. He/she also shall work to develop connections with employers to provide students with work-based learning opportunities.

The Superintendent or designee shall collaborate with postsecondary institutions to ensure that the district's program is articulated with postsecondary programs in order to provide a sequential course of study.

The Superintendent or designee shall ensure that teachers of CTE courses possess the qualifications and credentials necessary to teach their assigned courses. He/she also shall provide teachers and administrators with professional development designed to enhance their knowledge of standards-aligned CTE and ways to integrate technical and occupational instruction with academic instruction.

The District shall provide services to support students in the CTE program, including comprehensive career guidance and academic counseling. The Superintendent or designee shall provide counselors with professional development that includes, but is not limited to, information about current workforce needs and trends, requirements of the District's CTE program, work experience opportunities, and postsecondary education and employment options following high school.

The Superintendent or designee shall regularly assess District needs for facilities, technologies, and equipment to increase students' access to the District's CTE program.

Nondiscrimination

The District's program shall provide equal access to and shall not unlawfully discriminate against students who are members of special populations. Special populations include, but are not limited to, students with disabilities; students from economically disadvantaged families, including foster youth; students preparing for nontraditional fields; single parents and single pregnant females; displaced homemakers; and students with limited English proficiency. (20 USC 2302, 2354, 2373)

Prior to the beginning of each school year, the Superintendent or designee shall advise students, parents/guardians, employees, and the general public that all CTE opportunities are offered without regard to race, color, national origin, sex, or disability. (34 CFR 104.8, 106.9)

The above notification shall be disseminated in languages other than English as needed and shall state that the District will take steps to ensure that the lack of English language skills will not be a barrier to admission and participation in the District's CTE program. (20 USC 2354)

Advisory Committee

The Board shall appoint a CTE advisory committee to develop recommendations on the District's CTE program and to serve as a liaison between the District and potential employers. The committee shall consist of one or more representatives of the general public knowledgeable about the disadvantaged; students; teachers; business; industry; school administration; and the field office of the California Department of Employment Development. (Education Code 8070)

This committee may be expanded to include parents/guardians, representatives of labor organizations, representatives of special populations, and other interested individuals in order to involve them in the development, implementation, and evaluation of CTE programs funded through the federal Carl D. Perkins Career and Technical Education Act.

Program Evaluation

The Board shall monitor and evaluate the achievement of students participating in the District's CTE program. The Superintendent or designee shall annually report to the Board on program enrollment and completion rates, including enrollment and completion of programs in nontraditional fields as defined in 20 USC 2302; student academic assessment results; attainment of career and technical skill proficiencies; attainment of a high school diploma or equivalent; graduation rates; and subsequent placement in postsecondary education or advanced training, military service, or employment.

At least every three years, the Board shall compare the District's curriculum, course content, and course sequence of CTE with the model state curriculum standards. (Education Code 52376)

The Superintendent or designee shall systematically review the District's CTE classes to determine the degree to which each class may offer an alternative means for completing and receiving credit for specific portions of the course of study prescribed by the District for high

school graduation. The Board shall ensure that these classes are equivalent in content and rigor to the courses prescribed for graduation.
